

SUPPORT FOR YOUR CHILD

Are you concerned about a young person's drug or alcohol use – we can help them.

DEDICATED SERVICE

Most young people who use drugs or alcohol are experimenting but have little understanding of the impact their use could have on their health and wellbeing.

The youth service works with any young person to help them address their substance misuse issues and make more informed choices about their use.

For a few, their drug or alcohol use can begin to have a bigger impact – we can help these young people make changes, cut down or quit. We can support them to access any additional help they may need. We work across the county so we can meet a young person wherever is appropriate for them.

If you want more information or have any questions then please get in touch.
