

# Drink Diary

Use the table below to monitor how much you are drinking:

	What did I drink?	How much?	Where? Who with?	Units?	Feelings?
MON					
TUES					
WED					
THUR					
FRI					
SAT					
SUN					

Looking at the chart above what changes might be helpful?

**Some ideas might include:**

- Trying to reduce by 1-2 drinks
- Drinking in places which will help me to keep in control
- Considering how I feel before I start to drink and how I might feel afterwards
- Think about choosing a drink with a lower alcohol content
